722-1329

May 2, 1984

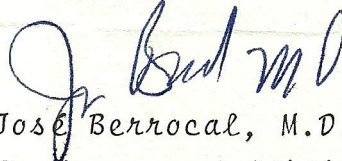

To whom this may concern:

RE: Sergio Benchiomol

This is to acknowledge the outstanding performance of this young ophthalmologist while taking the Latinoamerican Course in Puerto Rico in 1984.

Among 45 students he was the one with the greatest interest in assisting us with IOL surgery, vitrectomies, and retinal detachment surgery almost every week during the three months period he was in Puerto Rico.

Sincerely,

José Berrocal, M.D.

- Professor of Ophthalmologist
University of Puerto Rico
